vetrina 10x10x4 mm

Mosaico di vetro float, composto da tessere quadrate non perfettamente ortogonali - di spessore 4mm nel formato 10x10 mm - montate su rete in fibra di vetro a formare un foglio di dimensioni 327x327 mm in cui le tessere sono distanziate di circa 0.9 mm*.

La forma volumetrica a parallelepipedo delle tessere, non perfettamente ortogonale rispetto alla superficie, può comportare, a posa ultimata, riflessi e/o ombreggiature variabili a seconda delle condizioni di luce. Per la forma stessa della tessera, della sua lucidità e della sua profondità, sono da considerarsi caratteristiche tecniche ed estetiche del prodotto. Per Vetrina Matt e tutte le Cromie composte esclusivamente da Vetrina Matt, Mosaico+ suggerisce la stuccatura con stucco cementizio. Per contesti in cui si utilizzi lo stucco epossidico si prega di consultare l'ufficio tecnico. Gli stucchi suggeriti sono prodotti Mapei. Per informazioni tecniche e commerciali contattare Mapei S.p.A. e visitare il sito www.mapei.it.

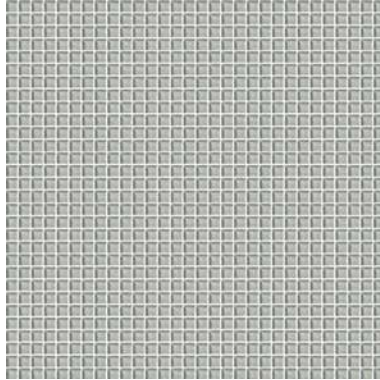

The chips' parallelepiped three-dimensional form is not perfectly right-angled; thus, in some lighting conditions, bright reflections and/or areas of shade may occur after laying. Considering the chip's shape, shine and depth, these features are intrinsic to the product's technical and appearance characteristics. For Vetrina Matt and Cromie entirely composed of Vetrina Matt, we suggest a polymer modified cementitious grout. If the destination of use implies an epoxy grout, please contact us. The suggested grouts are Mapei products. For technical and sales information, contact Mapei S.p.A. and visit www.mapei.it.

Mosaico in vetro e oro composto da tessere quadrate non perfettamente ortogonali - di spessore 4 mm nei formati 10x10, 15x15 e 20x20 mm - alle quali è applicata una foglia d'oro a 24K (sottile lamina d'oro) protetta da una cartella di vetro. Le tessere sono montate su rete in fibra di vetro a formare un foglio di dimensioni 327x327 mm in cui le tessere sono distanziate rispettivamente di 0,9, 1,4 e 1,9 mm circa. La collezione Doro è disponibile in 2 finiture chiamate "A Pavimento" ☒ e "A Rivestimento" ☒* e in 2 colori: Giallo e Bianco, Liscio ed Ondulato.

Glass and gold mosaic consisting of square chips - 4 mm thick, not perfectly rightangled and in sizes 10x10, 15x15 and 20x20 mm - with a 24-carat gold foil (thin film of gold) applied, protected by a layer of glass.

The chips are mounted on glass fibre mesh to form a sheet of 327x327 mm in which the chips are about 0.9, 1.4 and 1.9 mm apart respectively. The Doro collection is available in 2 finishes "A Pavimento" ☒ and "A Rivestimento" ☒, and in 2 colors : Yellow and White, Smooth and Wavy.*

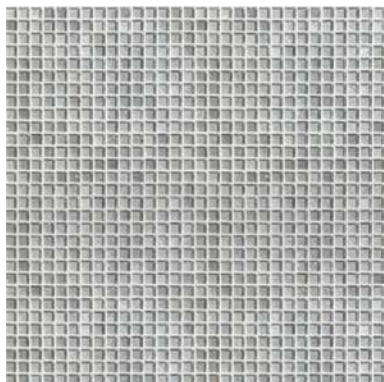

* Nella finitura "A Pavimento" la foglia d'oro posta sul fondo, al di sotto della cartella di vetro, dona al mosaico un particolare effetto di profondità. Nella finitura "A Rivestimento" la foglia d'oro rimane in superficie per un risultato più compatto e materico. Doro Giallo va in immersione. Doro Bianco va in immersione solo nella finitura "A Pavimento".

In the "A Pavimento" finish, the gold foil applied to the back, underneath the glass layer, gives the mosaic a striking effect of depth. In the "A Rivestimento" finish, the gold foil is left on the surface, for a more compact, tactile look.

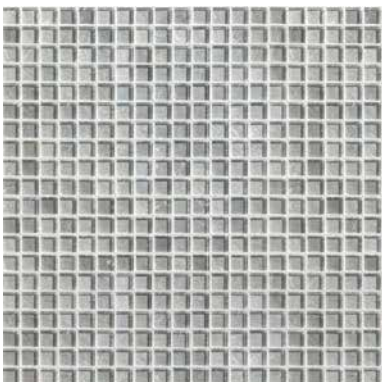

Doro Giallo is suitable for immersion. Doro Bianco is suitable for immersion only in "A Pavimento" finish.

Mosaico composto da tessere quadrate di vetro float, non perfettamente ortogonali, tagliate con il diamante, di spessore 4 mm circa, nei formati 10x10, 15x15 e 20x20 mm*, alle quali viene applicata una sottile pellicola color oro o argento con una resina epossidica. La superficie del prodotto può essere liscia o ondulata. A differenza del mosaico della collezione "Doro", Allure è disponibile solo nella finitura "A Pavimento", ovvero con la pellicola colorata posta sul fondo, al di sotto della cartella di vetro, donando al mosaico un particolare effetto di profondità. Può essere utilizzato anche a rivestimento - sempre con la pellicola applicata sul fondo della tessera.

Mosaic composed of square chips of float glass, not perfectly orthogonal, cut with a diamond, about 4 mm thick, in sizes 10x10, 15x15 and 20x20 mm, with a thin gold or silver film applied with an epoxy resin. The product surface can be smooth or wavy. Unlike the "Doro" collection, Allure is only available in the "A Pavimento" finish, that is with the colored film placed on the bottom, below the glass folder; this gives the mosaic a particular depth effect. It can also be used as wall covering - always with the film applied on the bottom of the card.*

Mosaico di vetro fuso costituito da tessere di vetro mescolate con graniglia di smalto e/o "avventurina" (pietra dura semi preziosa). *
Aurore è composto da tessere quadrate e bisellate - di spessore 4 mm nel formato 20x20 mm - montate su rete in fibra di vetro a formare un foglio di dimensioni 327x327 mm in cui le tessere sono distanziate di circa 1,9 mm.

*Fused glass mosaic consisting of chips made of glass mixed with enamel granules and/or avventurina (a semiprecious gemstone) *.*
Aurore is a mosaic comprising bevelled square chips - 4 mm thick and in sizes 20x20 mm - mounted on glass fibre mesh to form a sheet of 327x327 mm in which the chips are about 1.9 mm apart.

*
L'utilizzo dell'avventurina consente la formazione di particolari striature dai riflessi ramati e opalescenti, particolarmente brillanti, che conferiscono preziosità al prodotto.

The use of avventurina implies the forming of bright coppery and opalescent glints that create a unique, shining surface.

* In questo prodotto è ben evidente la lavorazione, detta sabbatura, che dona al mosaico la tradizionale caratteristica "a punti". La superficie risulta leggermente porosa.

This product derives its distinctive appearance from the sandblasting procedure, which gives the mosaic the traditional "pitted" look. The chips surface is slightly porous.

Natural mother-of-pearl mosaic consisting of right-angled square chips - 1.8 - 2 mm thick and in sizes 10x10 mm, 15x15 mm and 20x20 mm sizes. This product is recommended for wall covering only. Chips are mounted on glass fibre mesh (Abalone 10x10 excluded) to form a sheet of 300x300 mm, without joints between the chips so that no grout is required.*

Abalone nel formato 10x10 mm è disponibile solo in foglio rigido, in quanto la tessera che si ricava dalla conchiglia è leggermente più sottile e tende a rompersi facilmente. Per questo si utilizza un supporto rigido sul retro per proteggere il prodotto da eventuali rotture.

Abalone in size 10x10 mm is only available in rigid sheets, since the chips made from this shell are slightly thinner and tend to be brittle. A rigid backing is therefore used to protect the product from the risk of breakage.

Si consiglia di utilizzare collanti e stucchi epossidici in quanto la madreperla naturale è estremamente attaccabile da sostanze acide, per cui l'utilizzo di collanti cementizi renderebbe impossibile l'operazione di pulizia, generalmente effettuata con solventi a base acida. Particolare attenzione va quindi prestata nella cura e manutenzione del prodotto: essendo un mosaico naturale e non trattato, al fine di mantenere la superficie lucida, vanno utilizzati solo detersivi neutri, evitando le sostanze acide. La madreperla è composta quasi al 100% da carbonato di calcio e quindi viene sconsigliata l'applicazione in piscine e zone Wellness per la presenza di un'alta percentuale di cloro, così come non va esposta ai raggi del sole perché nel tempo potrebbe perdere in brillantezza e lucentezza. Il mosaico in madreperla è composto da elementi naturali, pertanto variazioni di colore e tonalità sono da considerarsi prerogative del prodotto.

Epoxy adhesives and grouts should be used, since natural mother-of-pearl is extremely vulnerable to attack by acids; this means that the normal post-installation cleaning procedure with acid solvents, necessary with cement-based adhesives, is not possible. Special care must therefore be taken over care and maintenance: since this mosaic is natural and untreated, to keep the surface shiny only neutral cleaning products must be used, and never acids. Mother-of-pearl consists almost entirely of calcium carbonate, and therefore it should not be used in pools or spa areas where large amounts of chlorine are present; also, it should not be exposed to direct sunlight, as it could fade and lose its shine over time. Mother-of-pearl mosaic consists of natural materials, so variations in color and shade are one of this product's distinctive features.

Mosaico di vetro sinterizzato* riciclato al 95%, composto da tessere quadrate non regolari e leggermente arrotondate, convesse e di spessore 6 mm circa nel formato 50x50 mm, montate su rete in fibra di vetro a formare un foglio di dimensioni 318x318 mm in cui le tessere sono distanziate di 3,6 mm circa.

Mosaic made from 95% recycled sintered glass, comprising irregular, slightly rounded square chips 6 mm thick, in size 50x50 mm, mounted on glass fibre mesh to form a sheet of 318x318 mm, in which the chips are about 3.6 mm apart.*

*

La sinterizzazione, ottenuta con la macinazione e la compressione del vetro, permette di ottenere un prodotto ad elevata resistenza meccanica e chimica particolarmente indicato nei pavimenti anche ad elevato traffico. Le dimensioni e lo spessore delle tessere possono subire delle variazioni così come leggeri avvallamenti. Piccolissime intrusioni di colore, non ortogonalità delle tessere e conseguenti fughe non rettilinee sono considerate caratteristiche intrinseche del prodotto.

Nella versione Grip, antiscivolo, sono possibili significative variazioni di tono dovute al particolare processo produttivo legato alla finitura superficiale.

**Sintering is a process in which the glass is ground and compressed; it provides a product of excellent mechanical strength and chemical resistance, ideal for floors even with heavy traffic. The chips' size and thickness may vary, and slight depressions in the surface are also possible. Very small color intrusions, non-right angles in chips and the resulting crooked joints are intrinsic characteristics of this product. In the anti-slip Grip version, significant variations in shade are possible due to the special production processes required to obtain the surface finish.*

La sezione Custom raccoglie esempi delle tecniche di lavorazione diverse che affondano le loro radici nella tradizione italiana del mosaico: mosaico artistico tradizionale, opus incertum, opus tessellatum e mosaico artistico computerizzato. Affiancare tessere, assemblare frammenti, selezionare materiali, adattare la giusta forma al giusto spazio rendono unico ed irripetibile il progetto che viene realizzato.

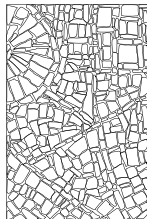

The Custom section collects examples of different processing techniques that have their roots in the Italian mosaic tradition: traditional artistic mosaic, opus incertum, opus tessellatum and computerized artistic mosaic. To match the chips, assemble fragments, select materials, adapt the right shape to the right space make the project unique and unrepeatable.

I pannelli di Decor possono essere realizzati anche in dimensioni personalizzate.

È considerata la tecnica più nobile del mosaico. Le tessere in genere sono realizzate in smalti veneziani ottenuti dalla fusione del vetro in un crogiolo e dalla successiva pressatura che trasforma la materia grezza in un arcobaleno di dischi colorati. La gamma cromatica è praticamente infinita e si distingue per la vivida brillantezza dei colori.

Il mosaico tradizionale può essere eseguito in via indiretta, con lavorazione su carta a rovescio a cui segue l'applicazione su parete o pavimento, oppure in via diretta su un supporto definito o su rete in fibra di vetro e successiva applicazione sul supporto finale.

This is considered the most noble of all mosaics. The chips are generally created in Venetian enamels, obtained by melting the glass in a crucible and then pressing it to transform the raw material into a rainbow of coloured disks. The colour range is virtually infinite, while the colours themselves are vividly brilliant.

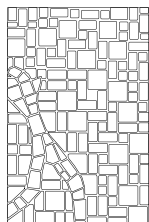

The traditional mosaic can be created indirectly, by working on a paper backing that is then applied onto the wall or floor, or directly, onto a permanent support or glass fibre mesh that is later applied to the final support.

Una tecnica che affonda le sue radici nelle opere edilizie romane. Le tessere che compongono il mosaico sono in pasta di vetro nel formato industriale che vengono tagliate manualmente con una pinza speciale a metà ed in quarto secondo percentuali stabilite, o anche irregolarmente in base alle necessità del disegno. I colori sono limitati alla gamma della produzione standard, quindi la realizzazione, pur ricca di dettagli, risulta più economica rispetto alla tecnica tradizionale. I frammenti, creando una trama irregolare e seguendo l'andamento del disegno, vengono assemblati su fogli numerati di carta o rete di dimensioni variabili e sagomati ad incastro.

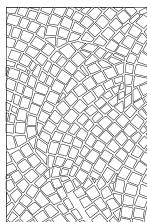

A technique that is deeply rooted in the construction works of ancient Romans. The chips that make up the mosaic are in glass paste in an industrial format and then cut by hand with special pliers into halves or quarters or irregularly, according to specific proportions and to the subject. The colours are limited to the standard range of production, so the final effect is somewhat economic compared to traditional technique, although rich in detail. The fragments are assembled according to the drawing on sheets of paper of various sizes, which are then cut and numbered. Through their setup, the fragments generate an irregular pattern that follows the design lines.

Tessere di vetro prodotte industrialmente nel formato 10x10 o 15x15b o 20x20 o 23x23 Glass chips that are produced industrially. The size are: 10x10 o 15x15b o 20x20 o 23x23

M+ offre un servizio di personalizzazione del prodotto sia come adattamento delle proprie collezioni in gamma, sia come progettazione e realizzazione di materiali ad-hoc per progetti di architettura e interior.

Questa tecnica artistica permette di trasformare una foto d'ispirazione in mosaico, utilizzando una sofisticata tecnica computerizzata di elaborazione di immagini. Le tessere in vetro prodotte industrialmente vengono assemblate e montate su una griglia ortogonale su rete o su carta. Le tessere possono essere di diverse dimensioni: 10x10, 15x15, 20x20 e 23x23mm. Le dimensioni del mosaico dovranno aumentare in proporzione alla quantità di particolari del soggetto che si vuole riprodurre e la distanza di lettura ottimale dovrà permetterne una chiara visione d'insieme. Questa tecnica viene quindi consigliata per vaste superfici quali piscine, pareti ed in genere tutti i supporti posti ad una certa distanza dal punto di osservazione.

M+ customisation services vary from adapting an existing product for a specific destination to developing a brand new one that perfectly meets the needs of architectural and interior projects.

This artistic technique allows the transformation of an inspirational image into a mosaic, thanks to a sophisticated computerized image-processing technique. Industrial glass chips are assembled and mounted on an orthogonal grid on mesh or paper. The chips may be of different sizes: 10x10, 15x15, 20x20 and 23x23mm. Mosaic dimensions will increase proportionally to the quantity of details in the subject, which will be clearly visible with the application of an optimal reading distance. This technique is suitable for vast surfaces such as swimming pools, walls and in general those areas that are moderately distant from the point of view.

AS 100 + AS LATEX

AS 100 è un adesivo cementizio (C) migliorato (2), resistente allo scivolamento (T) e con tempo aperto allungato (E) di classe C2TE da utilizzare per l'incollaggio a parete ed a pavimento, in interni ed esterni, di mosaici vetrosi, ceramici e di marmo montati su carta o su rete. AS 100 è una polvere particolarmente fine e bianca composta da cemento, inerti selezionati, resine sintetiche ed additivi speciali.

AS LATEX è un liquido molto fluido di colore bianco rosaceo, costituito da una dispersione acquosa di un polimero estremamente elastico che, miscelato con adesivi cementizi ne migliora, ad idratazione completata, l'aderenza a tutti i supporti, la deformabilità e l'impermeabilità.

AS 100 is an improved (2) slip resistant (T) cementitious adhesive (C) with extended open time (E) classified as C2TE suitable for interior and exterior floor and wall bonding of mesh-backed or paper-faced glass, ceramic and marble mosaic installation.

AS LATEX is a very fluid, pinkish-white liquid composed of a water dispersion of an extremely elastic polymer, which, when mixed with cement based adhesives, improves adhesion to all substrates, deformability and impermeability, once hydration has taken place.

1. PAGAMENTI

I pagamenti dovranno avvenire esclusivamente presso il domicilio del creditore. I termini e le modalità di pagamento indicate nella conferma d'ordine e/o nella fattura sono da intendersi perentori ed essenziali. Pertanto, in caso di mancato pagamento nel termine assegnato, l'Acquirente dovrà intendersi costituito in mora a tutti gli effetti di legge e saranno dovuti interessi convenzionali per il ritardo nella misura annua prevista dal D. Lgs. n°231/02. Al termine di ogni anno solare Mosaico+ S.r.l. sarà autorizzata ad emettere nota di addebito per gli eventuali interessi fino ad allora maturati. Qualora fosse convenuta per ogni fattura una dilazione di pagamento in rate successive ovvero più fatture con scadenze successive, il mancato pagamento di anche una sola delle scadenze comporterà l'automatica decadenza dell'Acquirente dal beneficio del termine concesso e pertanto questi dovrà provvedere all'immediato pagamento di tutta la merce ricevuta.

I costi per effettuare il pagamento (per emissione Ri.Ba., fissato bollato delle cambiali, presentazione effetti ecc.) saranno a carico dell'Acquirente salvo diverso accordo scritto. La venditrice potrà sospendere l'esecuzione della prestazione se le condizioni patrimoniali dell'Acquirente saranno divenute tali da pregiudicare il conseguimento della controprestazione.

Si intendono casi di evidente pregiudizio, a titolo esemplificativo e non esaustivo, l'apertura di procedure concorsuali, la messa in liquidazione dell'azienda, l'esistenza di protesti, pignoramenti, iscrizione di ipoteche giudiziarie e volontarie, revoca degli affidamenti bancari, insolvenze.

2. IMBALLO

Il materiale è consegnato con imballo standard idoneo al trasporto. Diverso imballo verrà addebitato al costo e dovrà essere concordato per iscritto.

3. CONSEGNA E TRASPORTO

La consegna verrà effettuata franco fabbrica ai sensi dell'art. 1510 c.c. e la merce dovrà essere là ritirata dall'Acquirente.

Qualora, su richiesta dell'Acquirente, la venditrice provvedesse a inviare la merce a mezzo di un proprio veicolo ovvero di un vettore o di uno spedizioniere, la merce si intenderà comunque consegnata franco stabilimento e viaggerà a rischio e pericolo dell'Acquirente. Mosaico+ S.r.l. dovrà intendersi autorizzata a concludere il contratto con vettori o spedizionieri nell'interesse dell'Acquirente e con oneri e spese a carico di quest'ultimo. Pertanto in tutte le ipotesi sopra descritte, qualora si verificassero furti e/o danni alla merce trasportata, la venditrice non ne sarà ritenuta responsabile. I prezzi indicati nei cataloghi si intendono franco stabilimento di Sassuolo (MO), I.V.A. esclusa.

I termini di consegna indicati nella proposta e/o nella conferma d'ordine dovranno intendersi indicativi e non tassativi. Ogni diverso accordo, per essere efficace, dovrà risultare per iscritto.

4. GARANZIA – RESPONSABILITÀ CONTRATTUALE

Il materiale consegnato è garantito per eventuali vizi o mancanze di qualità per mesi 24 dal momento della consegna se correttamente conservato e

correttamente applicato.

Il mosaico in legno e i mix contenenti tessere in legno devono essere tassativamente stuccati con stucco epossidico maturato almeno 7 (sette) giorni prima di essere a contatto con l'acqua, e non possono essere posati su supporti o superfici in immersione frequente o costante (p.es.: piatto doccia, vasca da bagno ecc). Il materiale, conservato negli imballi originali e integri, deve essere protetto dalla pioggia o dall'eccessiva umidità sia durante il trasporto che nello stoccaggio in cantiere o in magazzino.

In caso di denuncia di vizi dei prodotti entro i termini di cui al successivo art. 4bis, la venditrice sarà tenuta esclusivamente a sostituire la merce difettosa nel minor tempo possibile e non risponderà per alcun motivo di danni di qualsiasi natura, direttamente o indirettamente subiti dall'Acquirente o da terzi.

Mosaico+ S.r.l. non è responsabile per vizi e/o difetti che dovessero essere imputabili a negligenza nella conservazione dei prodotti, alle operazioni di posa, a carenze progettuali o a fattori non riconducibili ai prodotti forniti.

4 Bis. CONTESTAZIONI

Ai sensi dell'art. 1495 c.c., eventuali vizi, a pena di decadenza, dovranno essere formalmente denunciati a mezzo raccomandata a.r. o PEC entro 8 (otto) giorni dalla consegna del materiale ovvero, nel caso di vizi occulti, dalla scoperta.

La segnalazione di reclamo per eventuali danni arrecati alla merce durante il trasporto, sia a mezzo vettore o spedizioniere che mittente, dovrà essere effettuata al momento della consegna e indicata sul documento di trasporto e controfirmata dal conducente del mezzo.

In ogni caso, i materiali dovranno essere controllati prima della posa in opera e non si accetteranno contestazioni su materiale già installato. In particolare, Mosaico+ S.r.l. non risponderà per ritardi di consegna dell'opera da parte dell'Acquirente o per costi relativi al montaggio ed allo smontaggio di merce difettosa.

Qualora le procedure sopra esposte non siano espletate nei modi e nei termini stabiliti, il reclamo non sarà accettato e l'Acquirente decadrà dal diritto alla garanzia.

Ai sensi dell'art. 1462 c.c. l'Acquirente non potrà opporre alcuna eccezione al fine di evitare o ritardare l'adempimento alle proprie obbligazioni.

5. TOLLERANZE

Mosaico+ S.r.l. specifica espressamente che il colore delle tessere di mosaico non è mai uniforme e che il riferimento ai campionari è puramente indicativo e suscettibile di variazioni nell'ambito delle tolleranze di fabbricazione del colore stesso, così come indicative e suscettibili di variazione sono le percentuali dei colori nelle cromie.

La presenza di toni diversi mescolati costituisce una peculiare caratteristica del mosaico. Mosaico+ S.r.l. precisa che fra le diverse partite di materiale sono possibili variazioni di tonalità rientranti nei limiti di tolleranza della produzione, così come piccole inclusioni e/o scheggiature in alcune tessere.

Le dimensioni delle tessere sono indicative delle misure nominali al netto delle tolleranze di produ-

zione. Altresì dicasi per le fughe varianti in funzione della dimensione reale della tessera. Alcune collezioni per la loro specificità assumono, con la irregolarità della tessera, la valenza di mosaico artistico.

Pertanto l'Acquirente dichiara di essere a conoscenza che i prodotti possano avere variazioni di tonalità e/o di altre caratteristiche sopra menzionate, oltre a eventuali microporosità, e di accettare tali caratteristiche.

Mosaico+ S.r.l. non risponde di variazioni di colori/toni del mosaico per ordini formulati o eseguiti in tempi diversi.

6. RESI

Non si accettano resi se non espressamente autorizzati per iscritto dalla direzione di Mosaico+ S.r.l. Il documento di reso dovrà contenere i riferimenti del documento di trasporto emesso al momento della consegna.

I materiali resi dovranno essere contenuti negli imballi originali, integri e spediti in porto franco a rischio dell'Acquirente, se non diversamente concordato.

Al ricevimento della merce, e successivamente alla verifica della stessa, Mosaico+ S.r.l. emetterà relativa nota di accredito pari al 90% del valore della merce.

6 Bis. PRODOTTI PERSONALIZZATI

Per prodotti personalizzati e/o realizzati su specifiche fornite dall'Acquirente, non saranno accettati resi né variazioni in diminuzione. Pertanto, verrà addebitato all'Acquirente il relativo costo a prescindere dal loro ritiro.

7. PROPRIETÀ

L'Acquirente acquisterà la proprietà del materiale con la consegna della merce ai sensi dell'art. 3 che precede. Se la merce sarà consegnata a mezzo vettore, l'effetto traslativo della proprietà si verificherà in ogni caso con la consegna al vettore o allo spedizioniere.

tech info general conditions of sale.

1. PAYMENTS

Payments shall only be made to the creditor's domicile. The payment terms and procedures stated in the order confirmation and/or invoice are essential and binding. Therefore, in the event of failure to pay within the stated term, the Purchase shall be considered in default to all legal intents and purposes and interest shall be due on the overdue amount at the annual rate specified by Italian Decree Law n. 231/02. At the end of each calendar year Mosaico+ S.r.l. shall be authorized to issue a debit note for any interest accrued up to that date. In the event that payment by instalments is agreed for each invoice, or several invoices with due dates in sequence are issued, failure to pay even just one instalment or invoice shall automatically lead to forfeiture on the Purchaser's part of all right to make delayed payments, and therefore it shall be obliged to make immediate payment for all the goods received.

All costs relating to the payment (issue of bank payment orders, stamp duty on bills of exchange, presentation of bills, etc.) shall be for the Purchaser's account unless otherwise agreed. The Vendor shall be permitted to cease the supply of goods in the event that the Purchaser's financial situation is such as to cast doubt on its ability to meet its financial obligations.

Circumstances indicating inability to meet financial obligations include, by way of example and without limitation, the opening of bankruptcy or insolvency procedures, placing of the company in liquidation, protested bills, attachments, the registration of mortgages by court order and voluntary mortgages, the cancellation of bank credit lines and insolvency.

2. PACKAGING

Material shall be delivered with standard packaging suitable for the means of transport. Any other form of packaging shall be charged for at cost and shall be agreed in writing.

3. DELIVERY AND TRANSPORT

Goods shall be delivered ex-works pursuant to art. 1510 of the Italian Civil code and the Purchaser shall collect them at the Vendor's premises. In the event that, on the Purchaser's request, the Vendor sends the goods using its own vehicle or through a carrier or forwarding agent, the goods shall still be considered delivered ex-works and shall travel at the Purchaser's risk. Mosaico+ S.r.l. shall be authorised to stipulate a contract with carriers or forwarding agents on the Purchaser's behalf, with costs and expenses for the latter's account.

Therefore, in all the hypotheses described above, in the event of theft of and/or damage to the transported goods, the Vendor shall not be held responsible. The prices stated in the catalogues are ex-works Sassuolo (Modena, Italy), not including V.A.T.

The delivery times stated in the order proposal and/or confirmation of order are guideline and not binding. Any different agreement must be confirmed in writing.

4. WARRANTY-CONTRACTUAL RESPONSIBILITY

The material delivered is guaranteed against defects or failure to meet quality standards for

24 months from the moment of delivery if properly stored and correctly installed.

Wood mosaics and mixes which contain wooden chips must only be grouted with epoxy grout left to cure for at least 7 (seven) days before contact with water, and cannot be laid on substrates or surfaces which are often or always wet (e.g.: shower trays, bathtubs, etc.). The material, in its intact original packaging, must be protected from rain or excessive damp during both transport and storage on the installation site or in the warehouse.

In the event of complaints concerning defects of the products made within the terms specified in art. 4bis below, the Vendor shall be obliged solely to replace the faulty goods in the shortest possible time, and shall not be liable, for any reason, for damage of any kind incurred directly or indirectly by the Purchaser or by third parties.

Mosaico + S.r.l. shall not be held responsible for faults and/or defects caused by negligence in the storage of products, by the installation operations, by failings in the architectural design or by any factors unrelated to the products supplied.

4 Bis. COMPLAINTS

Pursuant to art. 1495 of the Italian Civil Code, any faults shall be formally reported by registered letter with return receipt or certified email within 8 (eight) days after delivery of the material, or in the case of hidden defects, after their discovery. Complaints for damage to goods in transit, whether by carrier, forwarding agent or the sender, shall be made at the moment of delivery and reported on the transport document, with the driver's signature in confirmation.

In all cases, materials must be inspected before installation, and no complaints shall be accepted with regard to material already installed. Mosaico + S.r.l. shall not be responsible for delays in consignment of the completed works by the Purchaser, or costs relating to the installation and/or removal of defective goods.

In the event that the procedures set out above are not completed by the stated manners and terms, the complaint shall not be accepted, and the Purchaser shall be deprived of the right of warranty.

Pursuant to art. 1462 of the Italian Civil Code, the Purchaser shall not make complaints for the purposes of avoiding or delaying the fulfilment of its obligations.

5. TOLERANCES

Mosaico+ S.r.l. specifically states that the color of mosaic chips is never uniform and reference to samples is purely guideline and subject to variation within the color's manufacturing tolerance range. The color percentages stated for the various shades are also purely guideline and subject to variation.

The presence of a mixture of different color shades is a distinctive feature of mosaics. Mosaico+ S.r.l. points out that variations of shade, within the tolerance limits for production, are possible between different lots of material, and small inclusions of different materials and/or splintering of some chips are also normal features.

Stated chip sizes refer to nominal dimensions net of production tolerances. The same applies to joint

widths, which vary depending on the actual chip size. In some collections, the irregularity of the chips used is crucial to the artistic value of the mosaic.

Therefore, the Purchaser declares that it is aware that the products may have slight variations in shade and/or other characteristics referred to above, as well as possible microporosity, and accepts these features.

Mosaico + S.r.l. shall not be liable for variations in colors/shades in the event of orders placed or fulfilled at different times.

6. RETURNS

No returns of goods shall be accepted unless specifically authorised in writing by the management of Mosaico+ S.r.l. The return document shall contain the references to the transport document issued on delivery of the goods. Returned materials shall be shipped in their original intact packaging, freight prepaid, at the Purchaser's risk, unless otherwise agreed.

On receipt and subsequent inspection of the goods, the Mosaico + S.r.l. shall issue the relative credit note for 90% of their value.

6 Bis. CUSTOMIZED PRODUCTS

No reductions in quantities or returns will be accepted with regard to customized products and/or products manufactured according to the Purchaser's specifications stated in the order confirmation. Their cost will therefore be charged to the Purchaser's account regardless of whether or not the latter takes delivery of them.

7. PROPERTY RIGHTS

The Purchaser shall acquire ownership of the material on delivery of the goods pursuant to art. 3 above. If the goods are delivered by a carrier, the transfer of ownership shall still occur on consignment to the carrier or forwarding agent.

8. APPLICABLE LAW AND JURISDICTION

These General Conditions are governed by Italian law.

Any dispute arising out or in connection with the validity, interpretation, performance of these conditions and of sales contracts will be submitted to the exclusive jurisdiction of the court of Milan, with exclusion of any alternative or concurrent jurisdiction.

5. TOLERANZEN

Mosaico+ S.r.l. weist ausdrücklich darauf hin, dass die Farbe der Mosaiksteine niemals einheitlich ist. Die Farbmuster sind Richtangaben. Abweichungen im Rahmen der Herstellungstoleranzen der jeweiligen Farbe sind möglich. Auch die Farbanteile der einzelnen Nuancen sind Richtangaben und können Abweichungen erfahren.

Der Mix mehrerer verschiedener Farbtöne ist als besonderes Merkmal des Mosaiks anzusehen. Mosaico+ S.r.l. präzisiert, dass zwischen den einzelnen Materialpartien Farbtonabweichungen innerhalb der Herstellungstoleranzen sowie kleine Einschlüsse und/oder Splitterungen an einzelnen Mosaiksteinen möglich sind.

Die Abmessungen der Mosaiksteine entsprechen

richtungweisend den Nennmaßen zuzüglich der Herstellungstoleranzen. Das gilt ebenfalls für die Fugen in Abhängigkeit vom Istmaß des Mosaiksteins. Einige Kollektionen nehmen aufgrund ihrer Besonderheit durch die unregelmäßigen Mosaiksteine den Charakter eines künstlerischen Mosaiks an. Der Käufer erklärt daher in Kenntnis zu sein, dass die Produkte Abweichungen in der Farbe und/oder anderen oben genannten Merkmalen sowie etwaige Mikroporositäten aufweisen können und diese Umstände zu akzeptieren.

Mosaico+ S.r.l. haftet nicht für Farb-/Tonabweichungen von Aufträgen, die zu unterschiedlichen Zeitpunkten erteilt oder abgewickelt werden.

Aux termes de l'art. 1462 du Code Civil italien, l'Acheteur ne pourra opposer aucune exception afin d'éviter ou de retarder l'accomplissement de ses obligations.

5. TOLÉRANCES

Mosaico+ S.r.l. précise expressément que les tesselles de mosaïque n'ont jamais une couleur uniforme et que les échantillonnages ont un caractère purement indicatif et peuvent subir des variations dans les limites des tolérances de fabrication de la couleur. De même, pour les tonalités, les pourcentages de couleur sont donnés à purement indicatif et ils peuvent subir des variations.

Les différentes tonalités mélangées constituent un trait distinctif de la mosaïque. Mosaico+ S.r.l. précise également que les lots de produits peuvent présenter des variations de tonalités qui restent dans les limites de tolérance de la fabrication, ainsi que des petites inclusions et/ou des ébréchures sur quelques tesselles.

Les dimensions des tesselles sont indicatives de la valeur nominale après déduction des tolérances

de fabrication. Il en va de même pour les joints qui varient en fonction des dimensions réelles de la tesselle. L'irrégularité des tesselles procure une valeur de mosaïque artistique aux collections qui présentent des caractéristiques particulières.

Par conséquent, l'Acheteur déclare être au courant que les produits peuvent présenter les variations susvisées relatives aux tonalités et/ou aux autres signes distinctifs, ainsi que des microporosités éventuelles, et il déclare accepter ces caractéristiques.

Mosaico+ S.r.l. ne saurait être tenue pour responsable des variations de couleurs/tonalités pour les commandes passées ou préparées à des moments différents.

5. TOLERANCIAS

Mosaico+ S.r.l. especifica explícitamente que el color de las teselas de mosaico nunca es del todo uniforme y que las referencias de los muestrarios son meramente orientativas y susceptibles de variaciones dentro de los márgenes de tolerancia de fabricación de los tintes.

La presencia de tonalidades distintas mezcladas constituye una característica peculiar del mosaico. Mosaico+ S.r.l. precisa que entre las diversas partidas de material pueden darse variaciones de tono, den-

tro de los límites de tolerancia de la producción, así como pequeñas impurezas y/o melladuras en algunas teselas.

Las dimensiones de la teselas se refieren a las medidas nominales sin tener en cuenta desviaciones mínimas por defectos admisibles de fabricación. Lo mismo vale para las juntas, que pueden variar en función de la medida real de la tesela. Con la irregularidad de su tesela, algunas colecciones, por su especificidad, adquieren valor de mosaico artístico.

Por consiguiente el comprador declara saber que los productos pueden presentar variaciones en el tono y/o en otras características, como las mencionadas más arriba, además de posibles microporosidades, y declara asimismo que acepta tales características.

Mosaico+ S.r.l. no responderá por variaciones de color ni tonalidad en relación con pedidos cursados o despachados en períodos diferentes.

tech info **общие условия поставки.**

1. ОПЛАТА

Оплата должна производиться исключительно по адресу кредитора. Сроки и условия оплаты, указанные в подтверждении заказа и/или фактуре, являются окончательными и основными. Поэтому, в случае невыполнения оплаты в указанные сроки по закону считается что Покупатель имеет задолженность, на сумму которой начисляются предусмотренные годовые проценты за задержку платежа в соответствии с Указом №231/02. В конце каждого календарного года компания Mosaico+ S.r.l. будет иметь право выписать дебетовое авизо по накопленным на текущий момент процентам. В случае если по каждой фактуре достигнута договоренность об отсрочке оплаты в последующих взносах или дополнительных фактурах с последующим сроком оплаты, несоблюдение даже одного срока оплаты автоматически ведет к потере права Покупателя на предоставленную отсрочку, и в этом случае Покупатель обязан произвести немедленную оплату всего полученного товара.

Расходы по выполнению платежа (по выписке банковской квитанции, договорной записке по векселям, предъявлению долговых обязательств и т.д.) будут за счет Покупателя, если не предусмотрено иное письменное соглашение. Продавец может приостановить выполнение услуги, если имущественное положение Покупателя становится таковым, что оно может ущемить право на получение платы за выполненную услугу.

В качестве неисчерпывающего перечня примеров приводятся следующие случаи очевидного ущемления права на получение платы: начало конкурсного производства, объявление о несостоятельности предприятия, существование опротестования, наложение ареста на имущество, наличие судебной и добровольной ипотеки, отзыв банковских гарантий, неплатежеспособность.

2. УПАКОВКА

Материал поставляется в стандартной упаковке, пригодной для транспортировки. Иной тип упаковки будет включен в счет и должен быть согласован письменно в подтверждении заказа.

3. ПОСТАВКА И ТРАНСПОРТИРОВКА

Поставка выполняется на условиях франко фабрика в соответствии со статьей 1510 Г.К., и товар должен забираться Покупателем на фабрике. В любом случае, если по заказу Покупателя Продавец обеспечит отправку товара собственным транспортным средством или через транспортное агентство или через экспедитора, товар считается поставленным на условиях франко предприятие и все риски, связанные с транспортировкой, будут за счет Покупателя. Компания Mosaico+ S.r.l. будет считаться уполномоченной на заключение контракта транспортными агентствами или экспедиторами в интересах Покупателя, с возложением на него всех обременений и расходов.

Поэтому, при всех вышеуказанных вариантах, в случае обнаружения краж и/или повреждения перевозимого товара Продавец не считается за это ответственным. Цены, указанные в каталоге, следует понимать как франко предприятие Sassuolo (MO), Н.Д.С. не включен. Сроки поставки, указанные в коммерческом предложении и/или в подтверждении заказа, считаются ориентировочными, а не обязательными. Любое иное соглашение, чтобы оно было действующим, должно быть оформлено в письменном виде.

4. ГАРАНТИЯ - ДОГОВОРНАЯ ОТВЕТСТВЕННОСТЬ

При условии правильного хранения и правильной укладке поставленного материала, на него предоставляется гарантия от возможного брака или дефектов качества сроком на 24 месяца с момента поставки.

Мозаика из дерева и смеси с элементами из дерева должны обязательно заделываться эпоксидными затирками и выдерживаться не менее 7 (семи) дней перед тем, как вступить в контакт с водой. Кроме того, они не могут укладываться на основы или поверхности, которые часто или постоянно погружаются под воду (напр.: душевой поддон, ванна, и т.д.). Материал, хранящийся в заводской, ненарушенной упаковке, должен быть защищен от дождя или от чрезмерной влаги, как во время перевозки, так и во время хранения на месте выполнения работ или на складе.

В случае поступления заявленной о дефектной продукции в сроки, указанные ниже в ст. 4bis, Продавец обязан лишь только заменить бракованный товар в кратчайшие сроки, и он не несет никакой ответственности за любой ущерб, понесенный Покупателем или третьими лицами прямым или косвенным путем.

Компания Mosaico+ S.r.l. не несет ответственности за брак и/или дефекты, вызванные небрежностью при хранении продукции, работами по укладке, недостатками проекта или другими причинами, не связанными с поставленной продукцией.

4 BIS. РЕКЛАМАЦИИ

В соответствии со ст. 1495 Г.К. о выявленном браке должно быть официально заявлено посредством заказного письма с уведомлением о вручении или сертифицированной электронной почты в течение 8 (восьми) дней с момента поставки материала или, в случаях скрытого брака, с момента его обнаружения, в противном случае гарантия отменяется.

Заявление о рекламации на выявленные повреждения, нанесенные товару во время перевозки транспортом транспортного агентства, экспедитора или отправителя, должно быть оформлено в момент поставки и отмечено в транспортной накладной, подписанной водителем транспортного средства.

В любом случае, материал должен быть проконтролирован перед тем как начать его укладку, жалобы на уже уложенный материал не принимаются. В частности, Mosaico+ S.r.l. не несет ответственности за задержки в сдаче работ со стороны Покупателя или за расходы, вызванные укладкой и демонтажом бракованного материала.

В случае если вышеописанные процедуры не будут проведены согласно установленным методам и срокам, рекламация не будет принята, а Покупатель теряет право на гарантию.

В соответствии со ст. 1462 Г.К. Покупатель не вправе требовать каких-либо исключений с целью избежать или задержать выполнение собственных обязательств.

5. ДОПУСКИ

Компания Mosaico+ S.r.l. обращает внимание на то, что цвет элементов мозаики никогда не однороден, а ссылка на образцы является лишь только приблизительной и зависящей от изменений, которые могут возникнуть во время приготовления красителя. Аналогично, приблизительными и подлежащими изменениям являются проценты отдельных цветов в цветовых смесях.

Наличие различных смешанных друг с другом оттенков является отличительной характеристикой мозаики. Mosaico+ S.r.l. уточняет, что в разных

партиях материала возможны изменения тона, соответствующие предельным производственным допускам, а также могут обнаруживаться небольшие включения и/или сколы некоторых элементов.

Размеры элементов являются номинальными и могут иметь производственные допуски. Размеры швов также являются приблизительными и зависят от реальных размеров элементов мозаики. Ввиду своей специфичности и благодаря неровностям элементов некоторые коллекции принимают характер художественной мозаики.

Ввиду вышеописанного, покупатель заявляет о том, что он ознакомлен с тем, что продукция может обладать отличиями тона цвета и/или другими вышеуказанными характеристиками, включая микропористость, и принимает эти особенности.

Mosaico+ S.r.l. не несет ответственности за изменения цветов/тона в заказах, сделанных в разное время.

6. ВОЗВРАТЫ

Возвраты не принимаются, если они письменно не разрешены дирекцией Mosaico+ S.r.l. Документ возврата должен содержать исходные данные транспортной накладной, оформленной в момент поставки.

При отсутствии иных договоренностей материал на возврат должен быть упакован в оригинальную неповрежденную упаковку и отправлен с оплатой перевозки под ответственность Покупателя.

После получения и проверки возвращенного товара Mosaico+ S.r.l. выкупит кредит-ноту, размер которой составит 90% от стоимости товара.

6 BIS. ПЕРСОНАЛИЗИРОВАННАЯ ПРОДУКЦИЯ

Персонализированная продукция и/или изготовленная по предоставленным Покупателем спецификациям, не подлежит возврату, изменениям и уменьшениям заказанных количеств. Поэтому, вне зависимости от вывоза этой продукции или нет, ее оплата будет взиматься с Покупателя в любом случае.

7. ПРАВО СОБСТВЕННОСТИ

Продавец приобретает право собственности на материал в момент поставки материала в соответствии с выше приведенным параграфом 3. Если товар поставляется перевозчиком переход права собственности в любом случае происходит в момент передачи товара перевозчику или экспедитору.

8. ПРИМЕНИМОЕ ЗАКОНОДАТЕЛЬСТВО И КОМПЕТЕНТНЫЙ СУД

Настоящие общие условия регулируются итальянским законодательством.

Любые споры, возникающие в связи с толкованием и/или исполнением настоящих условий и договоров купли-продажи, в том числе и споры, которые связаны с их действительностью, будут переданы на рассмотрение исключительно в суд города Милана, исключая любую другую альтернативную или конкурирующую подсудность.

Con la stampa di questo catalogo abbiamo cercato di avvicinarci il più possibile alla realtà cromatica delle tessere dei mosaici; i campioni stampati hanno tuttavia valore solamente indicativo.

When printing this catalogue, every effort has been made to reproduce the real colors of the mosaic chips; however, printed samples are guideline only.
