Besides selling your books assiduously online, there are several other strategies that may make it easier to promote more books.

One is to present one thing away for free together with your e-book, corresponding to a valuable bonus item. Or bundle several ebooks under one price, which lowers the value for each book if they had been sold separately.

An efficient approach for figuring out a price is to send out a survey to your present customers. If these customers have already purchased an e book from you, ask for his or her opinion when it comes to price. Do this by making a gross sales page for the brand new ebook, however don't embody a worth on that page. As an alternative, add quite a few hyperlinks to survey questions that ask pointed questions to aid you in assigning a worth to your ebook.

Another strategy is to test out costs by creating a number of duplicate sales pages with different prices on each page. Be certain that your gross sales copy is strictly the identical on every page,

and includes your selling-handle sentence. Then work out for every web page the conversion ratio between visitors to your site and gross sales of your book. This can let you know what your optimum price is.

Ultimately, if you happen to've written a e book that solves a drawback or presents a new approach, your e book will usher in both site visitors and profits.
