An effective approach for figuring out a price is to send out a survey to your present customers. If these clients have already purchased an book from you, ask for their opinion in terms of price. Do this by making a sales page for the new guide, however do not include a value on that page. As an alternative, add a number of hyperlinks to survey questions that ask pointed questions to aid you in assigning a price to your ebook.

One other technique is to check out prices by making a number of duplicate gross sales pages with different costs on every page. Ensure your gross sales copy is precisely the same on each web page, and consists of your selling-handle sentence. Then work out for every web page the conversion ratio between visitors to your site and sales of your book. This will tell you what your optimum price is.
