An effective technique for figuring out a value is to send out a survey to your present customers. If these customers have already purchased an e-book from you, ask for their opinion in terms of price. Do this by creating a gross sales web page for the brand new e-book, but do not embrace a value on that page. Instead, add a lot of links to survey questions that ask pointed questions to help you in assigning a value to your ebook.

One other technique is to check out prices by creating a number of duplicate sales pages with completely different costs on each page. Make sure your gross sales copy is strictly the similar on every web page, and includes your selling-handle sentence. Then work out for every web page the conversion ratio between guests to your website and gross sales of your book. It will let you know what your optimum value is.

Ultimately, in the event you've written a guide that solves a drawback or presents a new technique, your e-book will bring in each visitors and profits.
