An effective approach for figuring out a value is to ship out a survey to your current customers. If these customers have already purchased an ebook from you, ask for his or her opinion in terms of price. Do this by creating a sales page for the brand new ebook, but do not include a price on that page. Instead, add a number of links to survey questions that ask pointed questions to aid you in assigning a value to your ebook.

Another technique is to test out costs by making a number of duplicate sales pages with completely different prices on each page. Make sure your gross sales copy is strictly the similar on every web page, and contains your selling-handle sentence. Then work out for each web page the conversion ratio between visitors to your site and sales of your book. It will tell you what your optimum price is.

In the end, for those who've written a e-book that solves a drawback or presents a new approach, your e-book will herald both site visitors and profits.
