An efficient method for determining a price is to ship out a survey to your current customers. If these customers have already purchased an ebook from you, ask for his or her opinion by way of price. Do that by making a sales page for the new e book, but do not embody a price on that page. As a substitute, add various links to survey questions that ask pointed questions to help you in assigning a price to your ebook.

Another technique is to check out prices by making a number of duplicate sales pages with different costs on every page. Be certain your sales copy is exactly the same on each web page, and includes your promoting-handle sentence. Then work out for every web page the conversion ratio between guests to your website and gross sales of your book. This will let you know what your optimum value is.

Ultimately, for those who've written a e-book that solves a problem or presents a brand new method, your book will herald both visitors and profits.
