An effective method for determining a price is to send out a survey to your present customers. If these prospects have already bought an e-book from you, ask for their opinion in terms of price. Do this by creating a gross sales web page for the new ebook, but don't include a value on that page. As an alternative, add a lot of links to survey questions that ask pointed questions to aid you in assigning a value to your ebook.

One other technique is to check out costs by creating a number of duplicate sales pages with completely different prices on each page. Ensure your sales copy is strictly the same on every page, and consists of your promoting-deal with sentence. Then figure out for every web page the conversion ratio between guests to your website and sales of your book. This may tell you what your optimum price is.

Finally, if you happen to've written a e-book that solves a problem or presents a new method, your ebook will usher in each site visitors and profits.
