An efficient method for determining a worth is to ship out a survey to your current customers. If these customers have already bought an e book from you, ask for their opinion when it comes to price. Do that by making a gross sales web page for the new e-book, but do not include a price on that page. Instead, add plenty of links to survey questions that ask pointed questions to assist you in assigning a worth to your ebook.

One other strategy is to check out prices by making a number of duplicate gross sales pages with different prices on every page. Be certain that your sales copy is exactly the similar on every web

page, and consists of your promoting-handle sentence. Then figure out for each page the conversion ratio between guests to your web site and sales of your book. This can tell you what your optimum value is.

Ultimately, should you've written a book that solves a problem or presents a new method, your guide will bring in both traffic and profits.
