An efficient approach for figuring out a value is to send out a survey to your present customers. If these customers have already bought an book from you, ask for his or her opinion in terms of price. Do this by making a sales web page for the new e book, but do not embrace a value on that page. As an alternative, add quite a lot of links to survey questions that ask pointed questions to aid you in assigning a value to your ebook.

Another strategy is to check out costs by making a variety of duplicate sales pages with different costs on each page. Be sure that your sales copy is exactly the identical on every web page, and includes your promoting-handle sentence. Then figure out for each web page the conversion ratio between guests to your web site and sales of your book. This will tell you what your optimum price is.

Ultimately, if you've written a e book that solves a downside or presents a new method, your e-book will bring in both visitors and profits.
