An efficient technique for figuring out a value is to send out a survey to your current customers. If these prospects have already bought an e-book from you, ask for their opinion in terms of price. Do that by making a sales page for the brand new e-book, however don't include a worth on that page. Instead, add various hyperlinks to survey questions that ask pointed questions to assist you in assigning a price to your ebook.

One other strategy is to check out prices by making a variety of duplicate gross sales pages with different costs on every page. Be sure that your sales copy is strictly the same on each web page, and contains your selling-deal with sentence. Then figure out for each page the conversion ratio between visitors to your website and sales of your book. This will tell you what your optimum worth is.

Finally, if you've written a book that solves a drawback or presents a new technique, your e book

will herald both site visitors and profits. So you should definitely write that promoting-handle sentence that sums up what problem your guide solves and what the advantages of your 955 ebook will probably be to the purchasers who buy it. And then watch your market come to you!
